LISTEN-TO-MUSIC JULY 10

Works by Bartok, Bach, Brahms and Beethoven will be on the program for the next regular meeting of the Listen-to-Music Group on Monday evening, July 10, at 8 p.m. in the Research Staff Lounge.

The recordings to be played at that time are being provided by Ev Hafner and Charles Fisk. Copies of the complete program for the evening are posted in the Cafeteria and the Library.

All Brookhaven employees are cordially invited to attend.

NOTICE!

Locks have been removed from all lockers in the Gymnasium not registered at the Recreation Office. All clothes, rackets, shoes, etc., left in the lockers may be called for at the Recreation Office.

COMING EVENTS

July 18, 8:00 p.m.

ILLINOIS PROFESSOR TO ASSIST DIRECTOR OF BNL

Dr. Gerald F. Tape, formerly associate professor of physics of the University of Illinois, has joined the scientific staff of the Laboratory to assist Dr. Haworth, director, with the overall scientific administration of the Laboratory.

Dr. Tape went to the University of Illinois in 1946. His schedule was divided between research and design work on the University's cyclotron and associated problems and the administration of engineering physics courses for several hundred students. At Cornell University, 1939 to 1942, he taught physics courses and did cloud chamber research in connection with the University's cyclotron. From 1935 to 1939 he did graduate work and taught at the University of Michigan, where he obtained his Ph.D. after special studies in the field of nuclear physics.

From 1942 to 1946 Dr.

SWIMMING POOL

(contd. from page 1)

Daily tickets will be sold at the pool. Monthly and season memberships may be purchased at the Recreation Office only, by employees. All guests must be accompanied by an employee or member of an employee's family. Members of an employee's family, unless accompanied by employee, must present dependent's swimming pass at pool entrance. These passes, which must be presented for entry into the site, may be obtained at the Security Office.

ILLINOIS PROFESSOR

(contd. from page 1)

Tape served in the Radiation Laboratory of the Massachusetts Institute of Technology, Cambridge, Massachusetts. In the field of airborne radar, he supervised the development of radar relay equipment and later did field service work at various military establishments in the United States. In 1944 and 1945 he was in charge of the Radiation Laboratory's airborne radar work in Europe with headquarters in Malvern, England. These operations were primarily with the U. S. Eighth Air Force. He also
